DETAILED ACTION

1. This is a response to the amendment, filed 7/16/04.
2. Claims 1-43 are pending.

Response to amendment/arguments

3. Applicant's amendment and arguments, filed 7/16/04, are persuasive to overcome the previous rejection to the claims under the prior art of record. More specifically, Applicant argues that the prior art of record does not teach claimed novel features of tagging each network interface with a first IPspace identifier (ID) and applying the first IPspace ID to translation procedures that enable selection of a current virtual server context used to process an incoming request and an appropriate routing table used to process an outgoing request. The Examiner concurs with this argument. The pending claims are allowable for the above reasons.

Allowable Subject Matter

4. Claims 1-43 are allowed.
5. Independent claims 1,6,11,15,20,21,22,23,30,37 are allowed for reasons indicated above.
6. Dependent claims 2-5,8-10,7,12-14,16-19,24-29,31-36,38-43 are allowed for incorporating the limitations of the parent claim, and further limitations.
